BBGS

This Adjustable Recessed Downlight is available in 24 different versions with power levels from 7 to 40 watts and a variety of finishes. This Optimized Anti-glare Deep Baffled Spotlight features Split-Baffle in multiple colors. Like most of our recessed lights, this model is available with CREE or PHILLIPS LED diodes, a high efficiency reflector and tempered glass diffuser.

You can select diode colors ranging from 2000K to 6500K, Dynamic White Red, Green, Blue, Amber, RGB or RGBW. Input voltage is 100-277 volt AC and control options include 0-10 volt, TRIAC, DMX512, DALI, IR, RF and WIFI.

ETL LISTED for New or Remodel installation without a rough-in housing.

CIP LIGHTING is a division of Charlotte International Partners Inc.

We don't sit on inventory, watching it go obsolete! We manufacture to order, utilizing the very latest LED technology, and then we air freight it into the USA. It's actually less expensive than paying for a warehouse full of products that may never sell. This allows us to offer a greater selection at lower prices. *Why would you want to purchase obsolete inventory from a factory warehouse?*
